

## Fluorescent lamps will soon become unavailable for sale in a number of states. Are you ready?

In an effort to regulate consumer products that contain mercury, state governments within the USA have passed legislation that will prohibit the sale and distribution of Linear and Compact Fluorescent lamps.

### Regulation Effective Date by Product Category

State	Product Category				
	4-Foot Linear Fluorescent	All Linear Fluorescent	Screw or Bayonet Based Compact Fluorescent	Pin Based Compact Fluorescent	Mercury Vapor High Intensity Discharge
Vermont	1/1/2024				
California		1/1/2025	1/1/2024	1/1/2025	
Colorado		1/1/2025	1/1/2024	1/1/2025	
Oregon		1/1/2025	1/1/2024	1/1/2025	
Rhode Island		1/1/2025	1/1/2024	1/1/2025	
Hawaii		1/1/2026	1/1/2025	1/1/2026	
Minnesota		1/1/2026	1/1/2025	1/1/2026	1/1/2025
Maine		1/1/2026	1/1/2026	1/1/2026	
Illinois		1/1/2027	1/1/2026	1/1/2027	
Washington State		1/1/2029	1/1/2029	1/1/2029	

## LED Tubes are the fast and easy way to upgrade from Linear Fluorescent to LED.

Current offers a variety of LED Tube options, so you can choose the best solution for each application.

No Mercury in LED

50% Energy Reduction

2x Longer Rated Life

Quick Payback

## Which LED Tube is right for you?

### Ballast Compatible (UL Type A)

Easy Plug & Play

- Uses electronic fluorescent ballast
- No re-wiring required
- No electrician required
- Direct lamp replacement
- Check ballast compatibility\*

See Current's Ballast Compatibility Guide at [www.LED.com](http://www.LED.com)

### Ballast Bypass (UL Type B)

Simple Long-Term Solution

- Uses no ballast / driver
- Re-wire to bypass ballast
- Electrician required
- Built-in safety features
- Consider misapplication fuse

39017, BT8-1AFUSEKIT - 1 Fuse (1A), 1 Fuse Holder
