Why GE lamps

GE lamps provide unmatched peace of mind.

Innovation has been at the forefront of the GE lamps brand from its inception, and we continue that tradition today. Our complete portfolio of LED and Traditional Lamps and Ballasts allow our customers to choose the best lighting for their applications knowing they will receive a dependable product.

Our experienced and dedicated GE lamps team continuously strives to design new products to maximize energy savings, reduce maintenance costs, provide exceptional light quality and have a reliable long life.

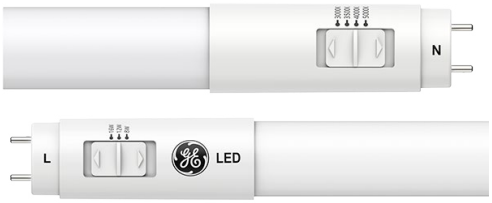

Complete

Current's comprehensive offering of GE lamps include high performance LED lighting solutions in addition to popular Traditional products. GE lamps cover a wide range of LED, Linear Fluorescent, High Intensity Discharge, Compact Fluorescent, Halogen, Incandescent and Ballast applications.

Innovative

Current's exceptional engineering professionals use deep knowledge of Traditional lamp applications to create industry-leading LED lamps that provide the right amount of light while saving energy and lasting longer. Use them to transform the look and efficiency of your facilities.

Dependable

GE lamps have provided the exceptional light quality that you know and love for years. Current's engineers continue to develop reliable GE LED lamps that fit Traditional applications and meet industry standards for equivalency claims.

Trusted

A reputation for quality and reliability is our legacy. Current continues the proud tradition today, creating GE LED lamps that last up to 70,000 hours and delivering superior solutions for even the most challenging replacement lamp applications.
